T.P. OFFICE COPY

Waste Minimisation Statement
Address: 8 Warwick Road, Worthing BN11 3ET

BOROUGH OF WORTHING
DEPOSITED 5.10.10
TP REF NO 10/0900/LBC

Clearance
A small amount of the existing roof covering will have to be removed in preparation for the works to be carried out. The new proposal has been set out to keep disruption to the existing structure to a minimum.

Areas, which we are aware of and we consider, will be disrupted are as follows:

1. Main Roof coverings including crown
2. Front parapet gutter
3. .Rear Extension Roof Covering

Redundant materials will be sorted and contractor will arrange for recycling company (such as Magpie Recycling) to determine whether any materials are considered suitable for recycling.

Proposed Works
Insufficient space is available to provide dedicated skips for waste material segregation. The contractor will check all measurements before order to keep materials wastage to a minimum. The recycling company (Magpie Recycling) will be kept in contact during works for collection of any reasonable quantities of excessive waste.
