In line with the advice provided by the Planning Officer, the proposed gate installation aims to follow the strong uniformity in the building line to the easterly side of Ivy Place (Neighbour Fence Line Photograph). The gates will be set back from the frontages of the existing buildings, and installed in line with the existing gate bracket (Original Fence Bracket Photograph). In order to avoid encroachment on the highway (Ivy Place) the gates will only open inwards with appropriate gate stops installed. Taking cues from 1 Rose Cottage which the Planning Officer stated "demonstrates an acceptable design approach which clearly has regard for the area's prevailing character" (1 Rose Cottage Gate Colour Photograph), the gate will be constructed from timber and painted in a colour that is reflective and sympathetic to the cottage and surrounding area (Opposite Peak Villa Colours Photograph). We have looked to colour match the gate at 1 Rose Cottage which the Planning Officer advises is acceptable (Guise Green Gate Colour Photograph).

Details of the pre-application advice received

The application was supported in principle and permission would be granted providing the gates were in keeping with the conservation area street scene and character and appearance of adjacent buildings. In light of officer observations, it was advised that the gate must be of wooden construction, set back from the front building lines of adjacent buildings so as not to be intrusive and painted in either off white or colours similar to 1 Rose Cottage (green).

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
