Dear Mr Appleton

Regarding – Planning Application ADC/0116/11

Holmbush Centre Upper Shoreham Road

I am writing to object to the revised planning application. Whilst these premises have been under construction it has become apparent as to how much the noise actually travels to our rear garden and property. The reversing of Lorries is very audible and we have even been able to hear the conversations of the construction workers in the proposed delivery area. This has already caused us some considerable annoyance especially at the weekends and both early in the morning and on nice sunny days sometimes till 8pm which I find unacceptable. I cannot stress how concerned I am that they have now proposed for deliveries to commence at 6am what with the Lorries reversing alarms, and the general clatter of trolley whilst unloading and with added fork lift trucks.

I not only have two young children one who is under 3 and the other 7, but I am also a shift worker and as you can imagine do not want to be disturbed in my sleep after a series of night shifts which would be the case with non pneumatic tyre trolleys. Not only that I like to enjoy my quiet family time at the weekends which are few and far between.

I therefore propose that the delivery times be restricted to between the hours of 8am and 6pm on week days and if a weekend delivery was absolutely necessary then this be between 9am and 12noon on Saturdays only, anything else I feel would be unacceptable and would be a breach of my right to a quiet family life. I believe that allowing deliveries during the times that I have stated would still allow the applicant more than a sufficient service to its customers. If this matter was critical to their business plan then this should have been raised at the onset and not now just prior to completion and opening, and frankly this reflects poorly on their initial planning.

I look forward to hearing from you in reference to my objection shortly.

Yours sincerely
