Re 103 Kings Road Lancing Bn15 8EQ

We have seen the plans but not sure of material they may use .

We are happy for them to assemble and replace the old conservatory but we oppose the new extension in the infill facing south.

Our reason are as follows

1- Overlooking our property

2- No Privacy

3- The extension will be facing south and our back garden faces north so with that in mind it will cut a lot of light out for us . We can see that by the way the scaffolding is at the moment It will have a feel of being on top of us and very claustrophobic .

4- It will effect the value of the house

5- Noise

6- Our Personal financial will be affected due to buying some kind of security be it trees or others .

7- We do not know what materials they may use. Please can you send us the relevant info.

8- So we Mr Mrs David and Angela Goldsmith refuse the planning permission on the infill extension .

Regards

Mr and Mrs David and Angela Goldsmith
