Attn: Development Manager

I would like to put forward my comments for the proposed Scout Hut to be used by other community groups.

I am a resident of Sandown Road and live directly opposite the scout hut. It was the agreement that the hut only be used for Scouts and that it would not be rented out to other community groups and that this was the understanding when I bought my house and also when the planning went ahead for the new scout hut to be built. The new build caused me a great deal of stress too when it was being built. That is another matter.

I would like to oppose the plan to lease the hut to other community groups. If this happened it would cause a very busy corner of cars and noise in what is a quiet residential road. There will be parking issues - already, people park all along the road and right outside my kitchen window on the pavement when dropping off their children for scouts which is a real intrusion for me already. If the hut was leased out to other community groups, this would be happening all the time and it was not what was agreed.

I would feel that my privacy will be invaded even more given that I look directly into the scout hut from my kitchen window and the scout workers directly into my house. I work from home as a health coach and would appreciate not having this happen on a more regular basis.

Thank you
Claire
