Introduction

This application is for an extension to provide permanent accommodation for full time care.

The applicant, Mrs Julia Barrie has a complicated medical history and has been on crutches for 26 years. Her mobility has steadily decreased over this time and for the last 15 years has needed a wheelchair. She is registered disabled and in receipt of disability allowances. It is getting to the point where Julia's needs are becoming more complex and she will require overnight care.

Proposed Accommodation

This application is for a single story rear extension to provide permanent accommodation for full time care. It includes a bedroom, a bathroom and a separate living area. The existing kitchen is shared.

Conclusion

We hope that the urgent need for this accommodation will be taken into account when determining this application.
