Expiry Date - 19/07/2019

Development Control – Delegated Officer Report

Application Number: AWDM/0831/19 Recommendation – APPROVE

Site: 66 Old Shoreham Road Lancing West Sussex BN15 0QZ

Proposal: Application for a Lawful Development Certificate for proposed side dormer and new window at first floor rear elevation.

Site visit: N

Proposal, Site and Surroundings

The applicant has proposed a side dormer on the east roof elevation; and installation of a window to the rear south elevation, on a detached dwelling in the town of Lancing. The site does not lie within a Conservation Area nor is affecting the setting of a Listed Building. There is a Tree Protection Order in effect on a neighbouring site however this would not be affected by the proposal.

A rear extension was permitted in 1984 under reference L/199/83/TP/3994.

It is noted that there are no previous planning decisions with conditions restricting development or removing permitted development rights of the property.

Planning Assessment

Principle

The proposal will be viewed against the criteria of permitted development, as laid out within The Town and Country Planning (General Permitted Development) (England) Order 2015

Consideration

Schedule 2, Part 1, Development within the curtilage of a dwellinghouse Permitted Development

<u>Class A – Enlargement, improvement or other alteration of a dwellinghouse</u>

A.1 Development is not permitted by Class A if-

a) permission to use the dwellinghouse as a dwellinghouse has been granted only by virtue of Class M, N, P, PA or Q of Part 3 of the Schedule (changes of use);

Analysis: *The dwellinghouse has not been created through change of use by virtue of Part 3.*

b) as a result of the works, the total area of ground covered by buildings within the curtilage of the dwellinghouse (other than the original dwellinghouse) would exceed 50% of the total area of the curtilage (excluding the ground area of the original dwellinghouse);

Analysis: *This criterion is not relevant to this application given the scope of the proposed development*

c) the height of the part of the dwellinghouse enlarged, improved or altered would exceed the height of the highest part of the roof of the existing dwellinghouse;

Analysis: *The alteration proposed would affect the face of an elevation only; therefore no changes in height of this elevation would occur as a result from the development*

d) the height of the eaves of the part of the dwellinghouse enlarged, improved or altered would exceed the height of the eaves of the existing dwellinghouse;

Analysis: *The alteration proposed would affect the face of an elevation only; therefore no changes in height of the eaves would occur as a result from the development*

e) the enlarged part of the dwellinghouse would extend beyond a wall which:
i) forms the principal elevation of the original dwellinghouse; or
ii) fronts a highway and forms a side elevation of the original dwellinghouse;

Analysis: *These criteria are not relevant to this application given the scope of the proposed development, as the alteration is a window on the rear elevation of the property*

f) subject to paragraph g) the enlarged part of the dwellinghouse would have a single storey and-
i) extend beyond the rear wall of the original dwellinghouse by more than 4m in the case of a detached dwellinghouse, or 3m in the case of any other dwellinghouse, or
ii) exceed 4m in height;

Analysis: *These criteria are not relevant to this application given the scope of the proposed development, as the alteration is a window*

g) until 30th May 2019, for a dwellinghouse not on article 2(3) land nor on a site of special scientific interest, the enlarged part of the dwellinghouse would have a single storey and-
i) extend beyond the rear wall of the original dwellinghouse by more than 8 m in the case of a detached dwellinghouse, or 6m in the case of any other dwellinghouse, or
ii) exceed 4m in height;

Analysis: *These criteria are not relevant to this application given the scope of the proposed development, as the alteration is a window*

h) the enlarged part of the dwellinghouse would have more than a single storey and-
i) extend beyond the rear wall of the original dwellinghouse by more than 3m, or
ii) be within 7 m of any boundary of the curtilage of the dwellinghouse opposite the rear wall of the dwellinghouse;

Analysis: *These criteria are not relevant to this application given the scope of the proposed development, as the alteration is a window*.

i) the enlarged part of the dwellinghouse would be within 2m of the boundary of the curtilage of the dwellinghouse, and the height of the eaves of the enlarged part would exceed 3m;

Analysis: *This criterion is not relevant to this application given the scope of the proposed development, as the alteration is a window*.

j) the enlarged part of the dwellinghouse would extend beyond a wall forming a side elevation of the original dwellinghouse, and would-
i) exceed 4m in height;
ii) have more than a single storey; or
iii) have a width greater than half the width of the original dwellinghouse; or
(ja) any total enlargement (being the enlarged part together with any existing enlargement of the original dwellinghouse to which it will be joined) exceeds or would exceed the limits set out in sub-paragraphs (e) to (j).

Analysis: *These criteria are not relevant to this application given the scope of the proposed development, as the alteration is a window to the rear of the property*

k) it would consist of or include-
i) the construction or provision of a verandah, balcony or raised platform,
ii) the installation, alteration or replacement of a microwave antenna,
iii) the installation, alteration or replacement of a chimney, flue or soil and vent pipe, or
iv) an alteration to any part of the roof of the dwellinghouse.

Analysis: *These criteria are not relevant to this application given the scope of the proposed development, as the alteration is a window on the rear elevation of the property*

A.2 In the case of a dwellinghouse on article 2(3) land:-

a) it would consist of cladding of any part of the exterior of the dwelling house with stone, artificial stone, pebble dash, render, plastic or tiles.
b) the enlarged part of the dwellinghouse would extend beyond a wall forming a side elevation of the original dwellinghouse;
c) the enlarged part of the dwellinghouse would have more than a single storey and extend beyond the rear wall of the original dwelling house.
d) any total enlargement (being the enlarged part together with any existing enlargement of the original dwellinghouse to which it will be joined) exceeds or would exceed the limits set out in sub-paragraphs (b) and (c).

Analysis: *These criteria are not relevant to this application given that the property is not situated on article 2(3) land*

A.3 Development is permitted subject to:-

a) materials must be of a similar appearance to those used in the construction of the exterior of the existing dwelling;
b) any upper-floor windows located in a wall or roof slope forming a side elevation must be:-
    i) obscured-glazed, and
    ii) non-opening unless the parts of the window which can be opened are more than 1.7m above the floor of the room in which the window is installed.
c) Where the enlarged part of the dwelling house has more than one storey or forms an upper storey on an existing enlargement of the original dwelling house the roof pitch of the enlarged part must so far as practicable be the same as the roof pitch of the original dwellinghouse.

Analysis: *The proposed development would use materials matching to that on the existing property; the remainder of these criteria are not relevant to this application given the scope of the proposed development, as the alteration is a window on the rear elevation of the property.*

Class B The enlargement of a dwellinghouse consisting of an addition or alteration to its roof

B.1 Development is not permitted by Class B if:-

a) The dwellinghouse has been granted only by virtue of Class M, N, P, PA or Q.

Analysis: *The dwellinghouse has not been created through change of use by virtue of Part 3.*

b) The height of the roof extension would exceed the highest part of the existing roof;

Analysis: *The proposed development would not result in any part of the dormer being higher than the peak of the existing roof*.

(c) the roof extension would extend beyond the plane of any existing roof slope which forms the principal elevation of the dwelling house and fronts a highway;

Analysis: *This criterion is not relevant to this application given the scope of the proposed development, as the extension is a dormer to a side elevation.*

(d) the cubic content of the resulting roofspace would exceed the cubic content of the original roof by more than:-
i) 40 cubic metres in the case of a terrace house, or
ii) 50 cubic metres in any other case.

Analysis: *Measurements taken from the scaled drawings show that the proposed development would only increase the roofspace by 20.87 m^3 (4.53 x 2.8 x 3.29 x 0.5) therefore would not exceed the limits set by the above criterion.*

(e) it would consist of or include:-
i) a verandah, balcony or raised platform or
ii) the installation, alteration or replacement of a chimney, flue or soil and vent pipe;

Analysis: *These criteria are not relevant to this application given the scope of the proposed development, as the extension is a dormer and would not include the above.*

(f) the dwellinghouse is not on article 2(3) land

Analysis: *The dwelling house is not sited within article 2(3) land.*

B.2 Development is permitted subject to:-

(a) the materials used in any exterior work must be of similar appearance to those used in the construction of the exterior of the existing house;

Analysis: *It has been stated within the proposed plans that the materials would be similar in appearance to that of existing materials*

(b) the enlargement must be constructed so that:-

i) other than in the case of a hip-to-gable enlargement or an enlargement which joins the original roof to the roof of a rear or side extension –
(aa) the eaves of the original roof are maintained or reinstated; and

(bb) the edge of the enlargement closest to the eaves of the original roof is so far as practicable, not less than 0.2m from the eaves, measured along the roof slope from the outside edge of the eaves, and

ii) other than in the case of an enlargement which joins the original roof to the roof of a rear or side extension, no part of the enlargement extends beyond the outside face of any external wall of the original dwelling house.

Analysis: *The proposed development would maintain the existing eaves and be positioned (according to dwg. 010, dated 25.02.19) 250 mm back from them, in line with the external wall of the original dwelling house.*

c) any window inserted on a wall or roof slope forming a side elevation of the dwelling house must be:-
i) obscure glazed and
ii) non-opening unless the parts of the window which can be opened are more than 1.7m above the floor of the room in which the window is installed.

Analysis: *The proposed development to the side elevation would contain two windows, which (according to dwg. 010, dated 25.02.19) are confirmed through labels and distance measurements to abide by the above criteria.*

Recommendation

Issue a Certificate of Lawfulness for Proposed Development, the submission of a planning application for the works will not be required.

Reasons for Recommendation

The proposal constitutes 'development' as defined by Section 55 of the Town and Country Planning Act 1990, but is permitted by Class A and B of Part 1 Schedule 2 of Town and Country Planning (General Permitted Development) (England) Order 2015, as amended.
