Comments: I live at 191A (top flat next door)

The western dormer will overlook/look into my kitchen and bathroom , as well as looking directly into my bathroom dormer upstairs.

I notice on the eastern dormer the windows will be obscured and fixed shut.

Nothing has been said regarding the western dormer. I would however be extremely uncomfortable, even if the window was obscured and fixed shut as it would be very close indeed to my property, as the houses were originally built very close together.

Full set of plans of my property which should indicate proximity are under ref. AWDM/0071/15.

I invite one of your planning officers to visit my property to view the potential intrusion this would have upon my everyday life.
