| Commenter Type: | Neighbour |
| Stance: | Customer objects to the Planning Application |
| Reasons for comment: | - Other<br>- Privacy Light and Noise |
| Comments: | I object to the proposed plan of the first floor extension for the following reasons.<br>The location of the planned bathroom window, we will be able to see directly into the room from the rear bedroom window and the ground floor rear reception room as we walk through it, especially if when their room is lit. Although they plan to have privacy glass it's is not effective when an interior light is on or up close. I fear that we will have many embarrassing and uncomfortable moment's catching the neighbours using the toilet, especially my daughter who spends most of her evenings in the rear bedroom.<br>The plans shows that the lighting will be reduced to the rear bedroom and kitchen, it would mean the same for my living room and rear reception room. As the windows for these rooms are located underneath the rear bedroom window and opposite their proposed kitchen window. As they are already in the shade as it is, the extension will put over half of the rear of my house in the shade. |

Kind regards
