Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Overdevelopment
Comments:	Please consider my comment an objection to the expansion of Brighton City airport, in Shoreham. Can the company wishing to expand their business demonstrate... - in what way the local environment will be improved - in what way local people and ecosystem services will benefit - in what way expansion is sensitive to national planning with regard to climate change, bioabundance and carbon sequestration - the ways in which local infrastructure and utilities has capacity for the expansion - if the company is part of a BNG offset scheme - the actors who will benefit from the expansion If the first four items on this list cannot satisfy the local Council and general public, it is clear that the expansion should be rejected. Mark Charlton
