Stance:	Customer objects to the Planning Application
Reasons for comment:	- Other
Comments:	Hi, I don't object to this tree being removed. My only concern is that if chopped down in one go it may affect the foundations of the adjacent property (where I own the flat above the applicant's). The tree is very close, say, within a couple of metres of the house wall and I know that chopping down a tree can result in the form of subsidence called 'heave' due to the dramatically altered moisture levels in the soil due to removing a large tree. Therefore, before a gave support to this application, I would want assurances that the removal of the tree would be in stages over a number of years to minimize the affects on the building.

Kind regards
