Subject: Planning consultation - AWDM/0931/24 Teville Gate Car Park Railway Approach Worthing West Sussex

FAO: Louise Prew

Dear Louise,

Having viewed the details for planning application No. AWDM/0931/24 for a Construction compound for the Worthing Heat Network to include unloading and loading, parking, storage and double height cabins for use as offices/storage (retrospective), conformation is required on the location of 3 fire hydrants within this compound, to establish if they are still in place and available for use in the event of a fire. I have attached a screen shot of their location from our operational mapping.

If these fire hydrants are still in place, West Sussex Fire & Rescue Service will require access to check and test them to ensure they are fit for purpose.

Regards

Ian
