To whom it may concern,

I would like to state I am unhappy with the waterside pub planning. On receipt of the letter of intention, the Waterside had already commenced works. Additional lighting has been put up and these combined with the intrusive spotlights that point directly at my property are causing disturbance.

I would be happy if the newly strung lights remain ONLY if the spotlights are removed. Otheise I would ask for removal of all new lighting. Please see picture for the view directly into my property.

The combination is too intrusive and I don't feel works should have been completed before resident consultation complete.

Yours sincerely,

Sorry, picture didn't attach in my last message re the waterside pub and new planning (please see previous email).

Please see picture to indicate intrusive lighting onto my property. As mentioned, I would state that the spotlights combined with all the new lights are far too much. I would ask that either the spotlights (preferably) OR the new lighting are taken down with immediate effect.

Terribly intrusive and quite blinding when attempting to leave my property as have to shield eyes from the light.

I look forward to your response.

Many thanks,
