Reasons for comment:	
Comments:	I appreciate that due to the current Covid restrictions that the Cricketers itself and the brewery wish to maximise the potential of the pub. However the pub is already a very large pub internally and in normal times can cater for many people. The additional noise and potential disturbance to residents who live in the vicinity of the pub can not be measured. The loss of car parking will put strain on an already busy area and the although in theory people shouldn't drink and drink we know they will. The children's park across from the pub is utilized fantastically by the local community and I would be concerned that there would be a potential tragedy waiting to happen as people speed along the road already. I would be happy to there to be a temporary beer garden whilst there is still a restriction on distance between customers and the need to limit footfall but I totally disagree that there is a need for a permanent beer garden and 3m poles for festoon lighting. This would allow the pub the additional income it

needs to survive in these difficult times as the loss of the Pub would affect many people as well.
