Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	We wish to object to this proposed extension on the basis that we will lose a lot of light, in our main living areas. As the proposal is for an increase in height and an extension towards the east (the side we live), the view/natural light will be restricted in the majority of our living areas, our bathroom, our kitchen, and our lounge/dining room. Having a two storey extension on the east side will block out virtually all our natural daylight on that side. The proposed side extension will also have an adverse effect of lack of light and privacy in the upstairs bedroom. The proposed increase in ridge height, along with the double storey extension, will make our house feel over-shadowed.
