Comments Details

Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Loss of General Amenity - Trees and Landscaping
Comments:	The fence will protect both members of the public engaging in recreational sports and walking, and farm animals and machinery, by keeping balls within the sports fields area and discouraging access from the country park area, which is managed for safe

access, into the farmland which is not other than on the permissive footpaths provided. The design is more attractive and durable than other fencing forms and will not be visually intrusive as our existing and new farm trees and hedges will soften and naturalize the fencing's appearance.

Kind regards
