Thank you for your email, trees in 28ltr, container 2.5m to 3m. high would be fine.

Many thanks

We note from the approved drawings that the trees are shown to have a spread of no more than 1.5m to 2m. A 30 - 50ltr container presumes a tree of around 5m in height with a comparable spread. We suggest a compromise of 28ltr, which is a standard purchase size and would provide trees of 2.5m to 3m. Is this acceptable to you?
