Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	Heat pumps make a noise of 60 decibels which is equivalent to people talking continuously which gets louder as the pump gets older. We feel this is totally unfair that someone can impose all that they have done upon neighbours. This will totally ruin our life in our garden, if they do want a heat pump they should have it installed near to their house.

Kind regards
