Dear Sarah Foster,

ADUR & WORTHING
19 AUG 2018
PLANNING SERVICES

Reference: AWDM/1109/18

I am writing to put forward my objection for 19 St James Avenue BN15 0AN.

We are not happy with the side elevation(s) which includes the window.
By number 19 having this window in their lounge it would be a complete loss of privacy for us by being able to look straight. threw our garden. Not only is it a loss of privacy it would also mean they will be overlooking us because they are higher up then us on the slope.
Please accept this

this as an objection. We have made it very clear to number 19 we are very concern about the loss of privacy it would cause us. But lucky we are on very good terms with number 19 and have explain we would be happy for the window only if it was obscured glass.

Number 19 ~~has~~ planning extenstion is very simular to ours and this is why we are so concern about the window because we dieliberately dudnt ask for one because of how much we would of been looking over number 15 due to the higher slope we are on. I have added our contact numbers if you wish to speak further about the objection.
