PLAN	AWDM/0324/15
DATE VALID	Dec 21/1/15

ADUR & WORTHING
PLANNING SERVICES

Please note:

1. See structural calculations for details of all new beams, posts and joists.
2. The existing foundations are to be exposed to check to see whether the existing dwelling has been constructed on a reinforced raft foundation due to the beach location. If so refer back to the structural engineer for further details.
3. A party wall agreement is to be made with the neighbour prior to works.
