Hi Hannah,

I hope you and your family are keeping well.

I have looked at the 8 The Street LBC application, which as you say is a very interesting read. I did speak to the owners sometime back, and they have taken expert advice regarding the preservation of the historic wallpaper found at this property. I support the approach of installing a UV barrier glass in order to display and monitor the wall paper.

I have also looked at Tudor Cottage, 457 Upper Shoreham Road. I cannot support this application for standard mass produced windows in a listed building that will fail to match the existing. Can you call me run through this one?

Kind regards
Richard

Hi Richard,

Hope you are well and getting on ok working from home.

I have 2 applications which I would like to ask for your advice please.

8 The Street AWDM/0590/20 - this has just come in - its in relation to wall paper conservation and investigations which are very interesting - could I have you comments on their proposals?

Tudor Cottage 457, Upper Shoreham Road Shoreham AWDM/0389/20 this is nearing 8 weeks now so I need to determine. We discussed this briefly a while ago and I had an appointment to visit which didn't take place due to lockdown. Gary put up the site notice and made the following comments: -

Tudor Cottage - as far as I can tell from info@work, there is quite some detail submitted with the application and some of the replacement windows are on a non visible elevation with the main building partly hidden by its own outbuilding. ADCAG have expressed support, I would think this is probably acceptable. I have never noticed how plain the block immediately to the east is before!

Gary has said that this is subject to checking of the details of the proposed windows - please could I have your views? I note that the opening methods vary on the replacement windows and that the moulding on the glass is not replicated - this is important I would think especially on the front elevation onto the street.

Its all on info@work.
Thanks
Hannah
