Adrian Brand [redacted] [redacted]

Att Peter Barnett
I am writing to you with regarding no68,
Our kitchen will loose all day light as the 1.9 meter height will block out all light
So meaning we would have to put lights on this also goes for the front room as the sun comes in and gives us brightness with the proposed plans we would loose all this . The person who came up to look at this keeps referring to no 42 this property is nothing to do with this also I believe there is a law called
Right to light .
With this extension we will be looking into a brick wall and not seeing the wild life like we do now.
Many thanks
Adrian Brand.
