Dear Mr Devonport,

Further to your correspondence reference No 10/0921/Full dated 9th May 2011.

As you are fully aware, I have had no less than 3 meetings with you at your office to complain about the situation of the smoking shed which was erected next to the wall on the north side of the factories car park.

This was erected within just a few weeks of the company moving in and it is now obvious that it has been done without planning permission.

On the other side of their wall is the lane (Harrison Road) and only a few yards to the east of the lane is private dwellings, which includes 5 young children.

There is usually a southerly breeze and the stench at times is unbearable, our health and that of other families are being effected.

As you have ignored the fact that Teledyne Cormon Limited have erected and used daily an illigal smoking shelter, I feel we are totally wasting our time objecting.

However, perhaps when you grant permission you would insist that the shelter conforms with the law. (the sides must be open) It would also be more acceptable if it was sited on the southside of the car park away from residential area.

Yours Sincerely

[redacted]
