2. Description of the Proposed Development

Development Description

The reason for this proposal is to replace the existing garage door with a bay window to match the other bay windows to the front of the property. We are planning to convert the existing garage into a liveable space as we are expecting an addition to the family and we require more living space as a family. There is currently access to the garage from inside the property. The window above the garage is currently a fake bay window (internally, the wall is flat). The windows on the opposite side are real bay windows top and bottom. The proposal is to include creating a real bay above the existing garage to create symmetry is the design of the house.
