Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Privacy Light and Noise
Comments:	We are the direct neighbour (not attached) to this property. Upon viewing the plans online we are concerned about our privacy and light. The proposed design of the porch and upstairs extension, we feel will not only intrude on our privacy but will also affect the light coming into our property. Our kitchen window is directly inline with where the proposed extension is going to go up, this we feel will block out the light coming into the property as this is our only window and only source of natural light. We do have a back door but this has privacy glass on it and does not really provide us with any natural light. All of the other properties in the road (including

our own) has the standard dorma at the back of the properties which do not improach on anyone's privacy or light. It seems that this property is going to be completely changed in design and would look totally different to all the other properties in the road.

Kind regards
