Application Summary

Address:	41 The Green Southwick West Sussex BN42 4FY
Proposal:	Application for Listed Building Consent for proposed repairs/alterations with historically appropriate materials to amend inappropriate alterations; On the west wall (rear elevation, garden facing), inappropriate cement pointing to the flinting is to be removed, the wall repaired and re-pointed in NHL 3.5 Lime mortar mix with pea shingle 10mm, subsequently brushed back to reveal the aggregate/traditional finish; On the south wall (side elevation), one half of the wall (south-east half) is rendered in cement and hung with clay tiles which are affixed with cement. Tiles and concrete render are to be removed and render replaced with NHL 3.5 or NHL 2 lime + sharp washed sand water mix, followed by a 3 coat system daub and levelling coat (with mesh) + finish coat. The other half (south-west half) does not have clay tiles, only concrete render, which is to be removed and replaced in the same way as the south-east half.
