Good Day to you.

I am objecting most strongly to this mast and the Technology that is called 5G.

For 20 years I have been aware of severe health issues to people and animals as well as Nature as a result from 3G and 4G and now it's 5G.

Before you consider making any decisions on agreeing to this mast and associated Technology I respectfully recommend you investigate in depth, the menace that this Technology provides.

You must seriously investigate the truth about this technology.

There is an enormous amount of Truth available. This cannot be ignored.

In the event that you wish the Truth to be provided for you I will arrange this.

Fibre cable does not need a mast. Or is it that the mast plays an important role in this Transhuman Genocide.

In the name of God Almighty, please seriously consider the extremely highly dangerous Technology.

Please cancel this planning application in the interests of public health.

Most Sincerely

Jim Whiteing
