Thank you for your email. I hope this is not too late for a reply, I had some difficulties with Remote Access. I have checked the plans and taken a look at the photo and in my opinion there should be no adverse effects on either tree. The building is north of the trees and not beneath either canopy, therefore I do not consider the works to be detrimental to the existing trees.

Many thanks

A neighbour to the rear has expressed consent over any potential impact of this proposed development upon these trees. the one directly to the rear of the extension (she says an Ash) and the larger one to the left.
