Supporting statement for: Replacement Curtain Wall Glazing & New Entrance Doors at Impulse Leisure Centre, Lancing Manor BN15 0PH.

The proposed development includes removing the existing silver finish aluminium curtain wall glazing to the East & West elevations of the entrance lobby. The proposed new Technal curtain wall glazing system will closely match the existing layout using a new powder coated aluminium system with all visible frame sections powder coated finish RAL 9011 Black.

Additionally the existing white powder coated outer entrance doors to the East & West elevations will be upgraded. The new door sets will consist of one large main DDA compliant operating door with a smaller slave door sized to fit the existing openings. The proposed new doors will be from the Comar 7 high performance aluminium range and will be powder coated finish RAL 9011 Black.

Please see further detail as provided by Technal for the curtain walling and Comar for the entrance doors,
