RE: AWDM/1210/23 – 250 Harbour Way, BN43 5HZ – Remodelling

Dear Adur & Worthing planning department

As an invested member of the community, I am writing to lend my unwavering support to the residents of 250 Harbour Way, Shoreham by Sea, BN43 5HZ, in their pursuit of a thoughtfully designed development project. After thorough scrutiny of the submitted plans, it is evident that a concerted effort has been made to ensure that this new structure seamlessly integrates into the existing architectural tapestry along Harbour Way and Old Fort Road.

The design's aesthetic appeal is striking, and I am confident that its visual impact will be harmonious and respectful of its surroundings. The prevalence of similar architectural styles along Harbour Way further reinforces the appropriateness of this project within the context. It is clear that the intention is not to disrupt but to contribute to the ongoing story of the neighbourhood's evolution.

In light of the above, I am pleased to offer my enthusiastic endorsement of the plans for 250 Harbour Way, firmly believing that it will enhance the neighbourhood's appeal and cohesiveness.

Yours Sincerely
