RE: AWDM/1210/23 – 250 Harbour Way, BN43 5HZ

Dear Adur & Worthing planning department

It brings me great pleasure to extend my wholehearted support to the residents of 250 Harbour Way, Shoreham by Sea, BN43 5HZ, as they embark on a journey to enhance the architectural landscape of our beloved community. A comprehensive review of the submitted plans leads me to believe that every detail has been meticulously considered to ensure that the proposed development seamlessly integrates into the vibrant architectural tapestry along Harbour Way and Old Fort Road.

The design's aesthetic prowess is evident, and I am confident that its visual presence will be one of elegance and alignment with its surroundings. The presence of analogous architectural styles along Harbour Way lends credibility to the rationale behind this project. It is unmistakably clear that the goal is not to disrupt but to contribute to the ongoing narrative of our community's growth.

In view of the above, I am delighted to extend my resolute endorsement of the plans for 250 Harbour Way. I firmly believe that this endeavour will not only augment our community's allure but also underscore our commitment to progress while cherishing our architectural heritage.

Yours sincerely
