Subject: United Reformed Church Shelley Road

Dear Sir or Madam

I am concerned about the size of the new development adjoining my property at 10 Buckingham Road.

1. The noise level of machinery etc. will not allow anyone living on the left side of Buckingham Road (north to south) to have a "quiet side".

2. The parking for all of us on that side of Buckingham Road is already non-existent - no provision has been at all by the Council for us (and of course we too pay our Council Taxes) - although I have always been assured at Council Election time by would be Councillors that something would be sorted out! Our parking problem will only be exacerbated by this project and the numerous patients and staff attending the Centre.

I do not totally object to the change of the use, however, I do object to the extra noise of the machinery required for the hydrotherapy unit being placed so closely to my boundary.

One more point, is this project for NHS patients or private patients? This matters as if it is for the NHS then of course we will get many more people - with cars - wanting to park in the area - What are the expected numbers - I am sure some kind of research has been done - where are the results and predictions?

I look forward to hearing from you.

Yours faithfully

Kate Taylor
