Subject: Shoreham centre. AWDM/0622/14

Hi,

I think the re-vamp and extension to the Shoreham Centre is great. My only concern is any increase in traffic from the car park behind the Shoreham Centre and from Pond Road that goes down narrow Middle Street onto the High Street. The traffic has increased in the last few years since I have been living here and some drivers think that it is a race course and drive at speed from Pond Road into Middle Street. Also, there are huge lorries that drive on the opposite side of the street, up onto the pavement so that they can swing their vehicle and squeeze down Middle Street.

Anything that could be done to slow down the traffic and take off the pressure on Middle Street would be appreciated by the residents who live in this lovely old town.

Regards,

Linda Newstead.
