26.5.16.

Dear Sir or Madam,

Would anyone be able to tell me what is happening at No. 6. Mill Hill?

I have lived here now for 44 years and never seen Mill Hill looking such a mess!

I was shocked in the first instance some months ago to see the bark of trees being removed.

I do understand via the local grape-vine there is "discussion" in progress.

I also see in the Adur Planning Column (Herald) that there is an application for further building work on the house.

How long can we expect Mill Hill to go on looking like a building site? It's plain awful.

An acknowledgement to this question would be greatly appreciated. Residents are appalled.

Yours faithfully,

[redacted] (Mrs.)

P.S.

There is also building work at No: 10.

The Council have kindly been twice to level & reseed the corner into Mill Hill Drive.

They have been very courteous in their reply to a request for double yellow lines by the post box, but can do nothing about it.

It is the parking area for builders who seem to be unaware that this is a bus route, and only thanks to the skills of the No: 19 bus driver is the Telegraph pole still standing!
