Reasons for comment:	- Privacy Light and Noise
Comments:	Further to our earlier representation, I would like to add that this development will result in us having no privacy at all in our garden. At present, with the terraced nature of the gardens of the two houses and their living rooms set back from the edge of the patio, the lower gardens of both houses are only slightly overlooked from a distance. If this extension is built, we will Instead have double height living rooms looking directly down on our garden from barely 2m away. This will take away our privacy, and leave us unable to enjoy our garden. We would therefore reiterate that the proposed extension is overdevelopment of the site to the detriment of the neighbours, leaving us with no privacy.

Kind regards
