Dear Peter

Re: Proposed Conservatory to North Elevation & Porch to east elevation at 26 Wilmot Road, Shoreham

Further to our correspondence last Wednesday 8th December. Please find attached the revised proposed Conservatory incorporating your comments,

The overall projection is now revised from 3m to 2.7m. The end walls have also been revised reducing to 1m in from each side.

I have not retained the chamfered corner features to optimise on internal usable space.
To retain the chamfered corners would be unpractical given the reduction in size and also not cost affective for my Client.
Please also note I have reduced the height of the porch roof to match proposed conservatory roof height.

I do hope the above and attached meet your requirements and satisfies any remaining concerns you may have resulting in an approval.

I look forward to receiving your decision on or before 17th December 2010.

Yours Sincerely

Nicholas Rubino ICIOB
