Dear Sir/Madam,

Proposal: Approval of details reserved by condition 3 (surface water drainage), 4 (surface water maintenance) and 9 (sewer diversion) of Application No AWDM/1063/21.
Site: AWDM/0161/23:- Garage Site off Avon Close and West of 19 Sylvan Road, Sompting, West Sussex.

Further to our response dated 20/03/2023 and additional information provided by the developer regarding surface water disposal. Southern Water would have the following comments to make:

The submitted drainage details indicate using impermeable lining for the paving which is satisfactory to Southern Water.

However, Southern Water cannot recommend discharge of condition 09 relating to sewer diversion and condition 03 relating to surface water disposal.

The submitted drawing (2022151-OCE-Z1-00-PL-C-300) ensures 45° load level from the proposed foundation is below the invert level of the 150 mm existing public foul sewer which is acceptable to Southern Water. The details of the proposed build close to a public sewer need to be agreed and approved by Southern Water before being implemented on site. application associated with the build-over/close-to a public sewer are available at Southern Water's Get Connected service: developerservices.southernwater.co.uk.

Care must be taken when working in the area of the public sewer to ensure no damage is caused as any damages will be repaired at the client's expense.

The applicant proposes to retain the SuDS within private ownership and maintenance. Hence, Southern Water would have no comments for condition 04 relating SuDS Maintenance.
