I want to object to SD Holdings request to build on the garden land between Southview road and Underwood Road. It is dangerous to the community as the current flooding that occurs is due to surges from the Ladywell system.

A planning inspector has already ruled that the development here is "harmfully discordant and overbearing. This is from the Appeal Refusal (app/y3805/W/23/3334241)

The plans don't allow enough space for a 26 tonne refuse truck to turn. This means blocking pavements, dangerous reversing and a hazard to our children and elderly neighbours
