17, The Street,

North Lancing

BN15 0PN

22nd May 2023

Dear Sir,

Further to your letter referring to planning ref: AWDM/0630/23 I recall a well known saying 'YOU CANNOT BE SERIOUS'!!

The toilet was originally licensed as a temporary structure!! It is ugly and should be removed as soon as possible. Also, the additional hours stated are totally out of order. If Men in Sheds have so many requests for their skills why are they spending the time they are there at present making and filling the exterior of these buildings with planters, fencing, wishing wells etc depriving local people of parking spaces whilst visiting the Manor. I dread to think what creations will appear if hours are extended to a full working week.

When the Greenkeepers managed these units it was always kept immaculate despite machinery coming in and out during the day.

My family have resided in The Street for well over 100 years. Some will be turning in their graves at the carnage that is taking place in this HISTORIC part of Lancing.

Yours faithfully,

Brian White
