Hello, I am just writing to voice my concern along with many others about the possibility of high rise housing blocks being built in Shoreham. I believe that these would destroy the current village feel the town has which is much loved and spoil it greatly. I realise that more housing is necessary and am pleased that the area will be opened up for public space and access to the river. Hopefully whatever is there will be and improvement on the current use but please don't allow too much to be squeezed in!
Regards
Denise Binks
