Development Management - Delegated Officer Report

Application Number: AWDM/0738/24 Recommendation – APPROVE

Site: 40 Eastern Avenue, Shoreham-by-Sea, BN43 6PD

Proposal: Installation of vehicular access and hardstanding

Date of site visit: Assessment has been assisted using the Applicants plans; Earthlight mapping; and Google 3D of the site

Neighbours checked: Y

Additional neighbour notifications: N

Site and Surroundings:

The application property is a two storey end of terrace, hipped roof dwelling, positioned on the east side of Eastern Avenue in Shoreham with a two storey front bay window. The existing front amenity area has a lawn and a few shrubs. The amenity area has a low brick wall enclosure.

The street is characterised by predominantly two storey terraced dwellings, many of which have created hardstanding's within their front amenity areas for the parking of cars.

Proposal:

Permission is sought to:-

- Drop the kerb to the front of the property to a width of 6.3m;
- Remove front boundary wall and gate; and
- Hardsurface all of the front amenity area, total area 40 square metres with associated drainage.

Consultations:

<u>WSCC Highways</u>:

The proposal is for a new 6.3m wide vehicular access and hardstanding. The site is located on Eastern Avenue, a C-classified road subject to speed restriction of 30mph.

From WSCC mapping, there appears to be no visibility issues at the point of access onto Eastern Avenue. The proposed access works will be subject to a licence

obtained through the local Highway Area Office and constructed to a specification agreed with the local Highway Area Engineer.

The proposed driveway appears of suitable size to accommodate two car parking spaces. On-site turning does not appear achievable, so cars may have to exit in reverse gear. However, this is not anticipated to give rise to an adverse highway safety impact, owing t5o good forward visibility in this location. Neighbouring properties operate similar access arrangements with no known highway safety concerns.

In summary, the LHA does not consider that this proposal would have an unacceptable impact on highway safety or result in severe cumulative impacts on the operation of the highway network, therefore is not contrary to the NPPF (para. 115), and that there are no transport grounds to resist the proposal.

If the LPA are minded to approve the application, the following informative should be applied:

Principle:

The proposal comprises the provision of a VCO to a residential property located within the built up area and can be supported in principle. The relevant issues are the highway safety, and visual effects on the amenities of neighbouring residential occupiers and the character and appearance of the surrounding area.

Visual & Residential Amenity:

There are many properties within Eastern Avenue that have VCO's, and front hardsurface amenity area, therefore they are part of the character of the street scene. Thereby, in principle, the creation of a further VCO will be acceptable.

The WSCC Highways Authority, have raised no highway objection to the proposal subject to an informative regarding obtaining a vehicular crossover licence is attached to any approval.

The application has proposed to hardsurface the front amenity area and utilize it for parking, and many of the other properties within Eastern Avenue have hardsurfaced their front amenity areas for car parking also.

Given that many of the properties within the area are using their front amenity area for the use of parking, and there are many existing VCO's in the immediate locality, it would be difficult to resist this application.

Recommendation:

APPROVE subject to the following condition(s)

1. Approved plans
2. Standard time limit

Informative:

1. Approved without amendment
2. VCO Licence
