I object to above planning application, Goring Gap has and hopefully always will be protected as now on the local plan..green space...where no development of any sort....should be upheld.

Mr Dixon wants to create an alcohol bar!!!!.....plus food PLUS... Cars for 150 spaces would create chaos....on an already busy road in spring and summer...

Using animals for entertainment is sickening...and keeping them on site...

Wildlife in Goring Gap and the Green Space is special.....he is destroying all of this....

Overnight camping would open the doors for camper vans parking again...

Everything Mr Dixon wants to do is not with keeping of the Green Space.....not VISUALLY ATTRACTIVE at all which is what the Goring Gap is...
I hope someone has already inspected this site.....he is already set up.....
