Dear Planning Team

RE Worthing Society Consultation Responses.

Thank you for requesting our comments.

I have attached two further Consultation Responses which have been considered by our Heritage Team.

If you have any queries please do not hesitate to contact me.

Regards

Susan Belton

1.AWDM/1149/26 - Hub at 45/47 Montague Street Worthing
LOCATION: South Street Conservation Area

The Heritage Team have considered this application which is similar to the various applications from BT in other areas of the town centre: the location outside Waitrose, South Street and outside 31 Montague Street.

Whilst we appreciate the value of strategically located defibrillators in the town centre we are concerned that an over use of associated brightly coloured advertisements detracts from the character of Worthing's conservation areas and does not enhance the streetscape.

The Heritage Team take the view that there should be a 'condition' to ensure that the illuminations are not overly bright. In addition, we consider the style of the units should complement the new Wayfinder monoliths which are colour co-ordinated to reflect to 'Four Quarters' of the town.
