Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design
Comments:	Shoreham town centre is a grade 2 conservation area and we are in danger of loosing our unique architectural heritage. Currently there is a query concerning the flat above me because they have put in UPVC windows without a planning application. The property in question is also part of a unit of houses and they should be preserved in their original form. I strongly disagree with the practice of replacing timber windows with inferior UPVC on the grounds that they ruin the aesthetic of Shoreham and in a few years they will look unsightly and cannot be repaired like timber windows. Its false economy and lazy.
