Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Loss of General Amenity - Privacy Light and Noise
Comments:	I am writing to confirm I have no objections to the side two storey extension and porch extension. However, the objection is to the west side facing dorma. Our hallway window is on that side and we currently have very little light anyway. With the roof raising plus the dorma, we would have no light coming in. Also there are privacy concerns into looking into both the hallway window and the bathroom side window. Also would be able to see more into the garden. The garden is north facing and we have little sun into the garden at best of times. This would further decrease the sun into the garden. We forfeited our own double storey extension on the side due to this and only went for a single storey. Lastly, our garden would be needed to build this dorma on with the scaffolding etc. It's a concern our only access will be blocked, the garage roof could potentially be damaged but mainly the safety of our children playing in the garden, in case something fell we would have to restrict them for using that side.

Kind regards
