Re rear outside staircase

Dear Sir/Madam

I require the staircase at the rear of the building to give

1 Easy access to my rear garden and garage

2 Safe exit from my flat in the event of fire, at present I need to exit via 3 locked doors and a flight of stairs. If there was a fire in the downstairs flat I would be trapped. I need to take prescription painkillers daily to enable me to walk about, so mobility is not always good.

3 Mrs P Holmes who lives in the downstairs flat, and I share the freehold of the property with her. She is keen for the new staircase to be built. At present I have to gain access to my flat via her hall.

4 Mrs A Wootton who lives at no 16 feels the flat 18A should have had an outside staircase long ago.

5 Mr and Mrs J Monks at no 20 also support my application for the staircase and feel it will make life easer for me.

6 I will make sure that the staircase will be of good quality and the whole project in keeping with the surrounding properties.

Yours sincerely D Woodall.

D Woodall
