Dear Peter,

Thank you for the letter dated 11th January 2018 which informs me of the planning application for replacement entrance ways to flats 74 to 84 Bushby Close.
Please can I ask that the other residents and myself are kept informed of the progress of this application and the future building works involved.
Whilst I can see that the present entrances are past their best, they have and still do provide safe and secure exteriors to the flat residences.
Please could any possible future replacement works be chosen to be practical and economical, and please could any costs to residents be as minimal as possible and be fairly distributed.

Thank you for your time and for all your hard work,
with kind regards,
Meesha Taylor (tel - [redacted]
