Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Trees and Landscaping
Comments:	It is totally unnecessary to pollard these tress and will cause a loss of wildlife and cause damage to local environment. With such high pollution caused by the A27 we are grateful for these trees air cleaning properties and their support for a wide biodiversity which is not provided by other non native, introduced species which are so common in the environs. If these are pollarded at this time of year countless birds will suffer as they are already nesting and should be protected. It also should be examined for validity based on this same application having been

submitted last year and rejected.

Accuracy of this application and the trees it refers to should be verified.

Kind regards
