Subject: re planning leconfield road

we would like to put in an objection to the proposed development in leconfield road, because it is hard enough to park around here as it is,dont want to be living next to a building site, we brought our house a year ago and the reason being is because of the space next to our house and so we are not being over looked and with houses there we will be,and becasuse of us having young children we want them to continue being able to play in there own back garden without being.
My name is mr street,40 leconfield road, lancing,bn15 9jb[redacted]
please could you contact me back about this matter.
thanks mr w street
