Reasons for comment:	- Other - Privacy Light and Noise
Comments:	Regarding the proposed new south elevation on the edge of 3 Saxons property line. I am concerned that the wall will require foundations that will impact my land. I don't want the new foundations to extend under my driveway and into my property. I am also concerned that during excavation and construction my driveway will be damaged as this appears to be the only access available. Once completed there will be loss of light to the north elevation of my property.

Kind regards
